

# INTERNSHIP GUIDE

## Introduction

Internship is a compulsory course for students in the International Undergraduate Program at the UGM Faculty of Law. Through Internship, students are sent into hands-on working experience in the legal field, whether in government offices, private corporations, international organizations, and other institutions in and outside Indonesia. Each IUP student must undergo two (2) Internship programs (internship I and internship II) before they are allowed to graduate from the Faculty of Law.

In each of the two-month (approx.) Internship periods, students are expected to utilize all of the relevant legal theories and skills they have obtained in class into real-life problems. This experience should be eye-opening, since it would introduce and familiarize students with the workplace and the working environment, as well as prepare them as Faculty of Law's future graduates, who shall not only be well-read, but also well-prepared to brace the challenges of the real world.

## Two types of internship

Each type of internship serves different objectives and it may affect its own characteristic.

- The objective of internship I is (i) **to introduce** each student to a certain variety of legal profession and (ii) to provide each student for **preliminary** practical legal experiences.
- The objectives of internship II is (i) to facilitate the students **more advanced** practical legal experiences; (ii) to provide the opportunity for the students in order to apply their legal knowledge, to nurture their legal analytical skills, and to adapt with working environments.

## Requirements to conduct internship

The requirements for conducting internship I are as follows:

1. Completion of a minimum of 55 (fifty-five) credits with a non-negotiable minimum CGPA of 2.50, in which grade D constitutes no more than 20% of all completed credits;
2. Proof of registration as an active student in the related semester when the Internship is available;
3. Formal registration for Internship by filling out the Internship Registration Form at the Study Plan (KRS) input period at the beginning of the relevant Semester.

The requirements for conducting internship 2 are as follows:

1. Completion of a minimum of 91 (ninety-one) credits, including Internship I (for the second Internship – “Internship II”) with a non-negotiable minimum CGPA of 2.50, in which grade D constitutes no more than 20% of all completed credits;
2. Proof of Registration as an active student in the related semester when the Internship is available;
3. Formal registration for Internship by filling out the Internship Registration Form at the Study Plan (KRS) input period at the beginning of the relevant Semester.

The final grade shall subsequently be produced by the Assessment Team using the following formula:  $\frac{G1+G2+G3}{3}$

G1: Grade from the Field Supervisor
